Regina Maroncelli, *European network of family friendly municipalities*

-support the life projects of families

-promote an integrated system of services reconciling home life and work commitment

-encourage policies helping young people with the transition to adult life

-spread a pro family culture cooperating with local authorities ready to redirect their policies to families wellbeing

 - introduce innovative tools such as family brands, plans, standard, incentives systems

-help developing a system of service and initiatives for the wellbeing of families via a cultural and administrative process with the direct participation of the civil society, to begin with family associations

Regina Maroncelli, *European network of family friendly municipalities*

Global minimum family criteria

- Engagement of family associations.

- Services for families (parental education, childcare services, family support including the elderly, mediation, etc.).

- Family benefits (allowances, taxation, tickets of transportation, museums, communal services, public services…).

- Specific body for families in the municipal council (agency, council member, representatives of families).

- Plan or strategy for families and youth policies.
